Construction Specifications

SECTION 1095
MISCELLANEOUS

1.0 GENERAL

This section govern the requirements of items of work not covered by the Specifications, but itemized on the Scheduled of Contract Units Prices and described in the Special Provisions

2.0 MATERIALS AND INSTALLATION

The materials and installation shall conform to the descriptions noted in the Special Provisions of the Contract Documents, which may only provide a brief description. The Contractor shall confirm with the Engineering Services Division further details and references to guide the supply and installation of the work item.

3.0 MEASUREMENT AND PAYMENT

The basis of payment for miscellaneous items of work shall be as itemized on the Schedule of Contract Unit Prices and may be lump sums or units of work or may require measurement.

The Contract Unit Price shall be deemed to include all materials, labour, equipment, supplies, superintendance, overhead and profit and shall be deemed to include all work incidental to complete installation.
